

API SPEC Q1 10TH EDITION INTERNAL AUDITOR TRAINING COURSE

Course Objectives:

This 2-day workshop prepare participants to perform internal QMS audits using industry-proven techniques and to apply proper interpretation of the API Q1 standard to real life audit situations. Participants will follow the full audit process including: audit tools and preparation, opening meetings, audit interviews, closing meetings, and reporting.

Upon completion of the workshop, participants will be able to:

- Understand and interpret the API Q1 requirements.
- Apply the proper interpretation of the standard in actual audit situations.
- Understand process auditing tools leading to substantive quality system improvements.
- Tailor an audit interview based on the requirements of the standard and obtain audit evidence from this interview.
- Follow-up and resolve “audit trails that present themselves during the audit interviews.
- Conduct audits that result in real improvements to the quality system.
- Plan and execute the entire audit process including: audit preparation, opening meetings, auditing, closing meetings, and reporting.
